Its collection is dedicated to the work of Army Chaplains throughout history in peacetime, under fire, and in captivity.

Admission is free and opening times are Monday to Friday, 1330 – 1700 or by prior arrangement.

Visitors to the museum will be able to:

The Wilts and Berks Canal - Afternoon Talk

Wednesday 4th December 2024 1:30PM, £7.50 per person.

The Wilts and Berks Canal was built in the early 1800s between the Kennet and Avon Canal at Semington, south of Melksham, to the Thames at Abingdon, primarily to take coal from the coalfield around Radstock, south of Bath, eastwards. There were short branches off towards Faringdon and to Wantage. In the 1810s, it was joined by the North Wilts Canal which ran from the Thames and Severn Canal at Latton, near Cricklade, to north of Swindon with the aim of bringing coal and wood south from the Forest of Dean. The Wilts and Berks Canal Trust is aiming to restore these Canals along their whole lengths. John, a past Secretary to the Trust's Swindon Branch for 15 years, will give a brief history of the Canal, pictorially show what can be seen today and describe plans for the future.
